

SELECT SUPPLIES.™ WHERE CUSTOMIZATION & STANDARDIZATION MEET.

As companies grow, so do procurement challenges. **Select Supplies™** is a customizable, web-based procurement system that brings product standardization, budgetary controls, and reporting into one easy-to-use tool that is backed by the strength of xpedx – a leading national distributor of facility supplies and equipment representing the industry's top manufacturers.

Select Supplies is tailored to meet the specific needs of BSCs. Realize the benefits of standardizing product usage and procedures across your business with **Select Supplies**. At the same time, customize **Select Supplies** with products, training tools, and information important to your unique operation.

Select Supplies. Where customization & standardization meet.

Standardization

- Streamline training and regulatory compliance
- Improve safety and performance
- Decrease total inventory while increasing inventory turns

Budget Controls

- Reduce overall spending
- Manage by exception
- Evaluate product usage by category

Reporting

- Measure compliance
- Track usage by building, product, or manufacturer
- Identify theft
